## Dubai 2022 World Archery Para Championships 19-27 February 2022 – Dubai (UAE)

Version 1.0 (21 October 2021)

### Welcome to DUBAI

### THE UNITED ARAB EMIRATES

UAE is consisting of seven emirates: Abu Dhabi, Dubai, Sharjah, Ras Al Khaimah, Ajman, Umm Al Quwain and Fujairah. Four-fifths of the UAE is desert but has contrasting landscapes—from the towering red dunes of the Liwa to the rich palm-filled Oasis of Al Ain, from the precipitous Hajjar Mountains to the more fertile stretches of its coastal PLAINS.

Though small (like the size of Scotland), the UAE has become an important player in regional and international affairs. In 1971, the late President Sheikh Zayed bin Sultan Al Nahyan unified the small, underdeveloped states into a federation—the only one in the Arab world. With his visionary leadership, oil wealth was used to develop the UAE into one of the world's most open and successful economies.

In 2004, His Highness Sheikh Khalifa bin Zayed Al Nahyan became the President and has since continued to strive towards an ambitious vision for the UAE.

### DUBAI

Dubai is located on the Eastern coast of the Arabian Peninsula, in the southwest corner of the Arabian Gulf. It is extremely well known for its warm hospitality and rich cultural heritage, and the Emirati people are welcoming and generous in their approach to visitors. With year-round sunshine, intriguing deserts, beautiful beaches, luxurious hotels and shopping malls, fascinating heritage attractions and a thriving business community, Dubai receives millions of leisure and business visitors each year from around the world.

## Dubai 2022 World Archery Para Championships 19-27 February 2022 – Dubai (UAE)

*Version 1.0 (21 October 2021)*

### **DUBAI RULERS**

Since 1833 the reigning Al Maktoum family have ruled Dubai. Under their wise and progressive leadership Dubai has prospered and it is now the business and tourism hub for a region.

### **DUBAI HISTORY**

Saruq Al-Hadid site is considered one of the most important archaeological discoveries in Dubai and the region, as it offers much of the UAE old past, especially during the Iron and Bronze Ages ,which confirms that the UAE civilization extends to 5 thousand years.

### **DUBAI ECONOMY**

The past few decades have witnessed incredible growth throughout all sectors of the Dubai economy. The emirate's government is constantly working to improve its commercial transparency and introduce dynamic regulations that aid the formation of small and medium enterprises. Dubai's economy is no longer reliant on oil, but is more diversified, relying heavily on trade, services and finance sectors. With its central geographic location between Asian and European markets, Dubai has worked hard to establish itself as an integral part of the global trade mechanism. Its central location has also allowed Dubai to become a popular and accessible tourist destination.

### **GENERAL INFORMATION**

#### **Weather**

Dubai has a tropical desert climate because of its location within the Northern desert belt. Summers are extremely hot and humid, with an average high around 41 °C (106 °F) and overnight lows around 30 °C (86 °F). Most days are sunny throughout the year. Winters are warm and short with an average high of 23 °C (73 °F) and overnight lows of 14 °C (57 °F). Precipitation, however, has been increasing in the last few decades with accumulated rain reaching 150 mm (5.91 in) per year. The weather in Dubai can bring short and irregular rainfall as is typical for the Middle East. Most of the rainfall occurs in the December to March period. The weather between December and March remains warm and is the most comfortable climatic conditions of the year.

#### **Currency**

The local currency is the dirham, which is pegged at AED 3.59 to 1 US dollar. Dubai is tolerant and cosmopolitan, and all visitors are welcome. However, Islam is a way of life in the city, and therefore tourists should adopt a certain level of cultural and religious sensitivity for the duration of their stay.

#### **Electricity and power sockets in the UAE**

In the United Arab Emirates, the standard voltage is 240-220 V. The standard frequency is 50 Hz. The power sockets that are used are of type G. Find pictures of these power sockets and corresponding plugs.
